

# Transient Authentication For Mobile Devices

by Mark Douglas Corner

27 Nov 2007 . Mobile device security background; PDA security; Laptop security your mobile device; Possible future of security: transient authentication. Application of Cell-phone in Laptop Security Transient Authentication for Mobile Devices - Commonwealth . Mobile device security using transient authentication - SlideShare  
Abstract—Transient authentication provide a secure scheme which protects the sensitive . this service a small hardware token (Mobile Phone) continuously transient authentication, our experience applying the model to a cryptographic file . store sensitive data on a mobile device need be no faster than the people RFID-Based Authentication Middleware for Mobile Devices Stan . In transient authentication system a wearable token is used which is constantly attached to the mobile device using radio frequency and monitors the presence .

Information Security and Privacy Research: 27th IFIP TC 11 . - Google Books Result Aging Friendly Technology for Health and Independence: 8th . - Google Books Result ?This problem is addressed by a technique called transient authentication. Rather than invest long-term authority with a mobile device---something easily set Transient Authentication - ijrcct Transient Authentication for Mobile Devices by. Mark D. Corner. A dissertation submitted in partial fulfillment of the requirements for the degree of. Doctor of ?PPT – Protecting Applications with Transient Authentication . sensitive data protection using transient authentication.pdf MobiSec 2009 - Google Books Result 13 Sep 2011 . Instead, applications can utilize an API for Transient Authentication, Mobile devices typically suspend themselves after an idle period or in Mobile Device Security Using Transient Authentication - IEEE Xplore Mobile devices are vulnerable to theft and loss due to their small size and the characteristics of their common usage environment. Since they allow users to work aes journals Anthony J. Nicholson - Research at Google transient authentication service - International Journal of Advanced . 15 Sep 2006 . Mobile Device Security Using. Transient Authentication. Anthony J. Nicholson, Mark D. Corner, and Brian D. Noble. Abstract—Mobile devices Data Privacy Management and Autonomous Spontaneous Security: 8th . - Google Books Result 3.1 Authentication on the Mobile Device. A.J. Nicholson et al.[1] propose a process of Transient. Authentication: a small wearable token with short-range-. Transient Authentication for Mobile Devices Mobile Device Security Using Transient Authentication systems with Transient Authentication, in which a small hardware token (Mobile Phone) continuously authentication framework to secure sensitive and. The Case for Transient Authentication - SIGOPS Authentication on Mobile Devices User authentication is a process of . Transient authentication can be implemented using a small wearable token that Protecting Applications with Transient Authentication USENIX Protecting Applications with Transient Authentication - PowerPoint PPT . 1. Email. 2. Phone. 3. Fax . OK PowerPoint PPT presentation free to view. Protecting applications with transient authentication\_???? link, in the concept of transient authentication. The user authenticate to the mobile phone infrequently. In turn, the mobile phone continuously authenticates to the Emergent Trends in Personal, Mobile, and Handheld Computing . - Google Books Result Protecting applications with transient authentication 5 May 2003 . Instead, applications can utilize an API for Transient Authentication, . Brian D. Noble, Mobile Device Security Using Transient Authentication, A Potpourri of Authentication mechanisms - The mobile device way 20 Nov 2013 . Presentation based on the paper: Mobile Device Security Using Transient Authentication Anthony J. Nicholson, Mark D. Corner, and Brian D. Advances in Computer Science and its Applications: CSA 2013 - Google Books Result Proceedings of the 14th Annual Conference on Mobile Computing and Networking (MobiCom 08), . Mobile Device Security Using Transient Authentication. Mark Corner, Transient Authentication for Mobile Devices. July, 2003. Currently Associate Professor of Computer Science, University of Massachusetts Amherst. NSF Award Search: Award#0208740 - Transient Authentication for . Protecting Applications with Transient Authentication. How does a Such persistent authentication is inappropriate for mobile and ubiquitous systems, where associations between people and devices are fluid and unpredictable. We solve Mobile Device Security - Personal Web Pages uses his Bluetooth-enabled mobile phone, which works as an authentication token that provides the authentication for laptop over a short-range wireless link. Transparent User Authentication: Biometrics, RFID and Behavioural . - Google Books Result Brian Noble - Electrical Engineering and Computer Science 17 Apr 2003 . Transient Authentication for Mobile Devices. ABSTRACT: Laptops are vulnerable to theft, greatly increasing the likelihood of exposing sensitive Contemporary Computing: Second International Conference, IC3 2009, . - Google Books Result Informatics Engineering and Information Science: International . - Google Books Result
